# A Budget of Paradoxes

By AUGUSTUS DE MORGAN

Revised and edited with full Bibliographical Notes and Index, by David Eugene Smith, Teachers College, Columbia University, New York. Cloth, 2 volumes, 500 pages each. \$3.50 per volume.

This is the work by which De Morgan is best known to most people. Charm, humor, satire, learning, love of the curious—including the psychology of circle-squares—all mark this book as one of absorbing interest to all lovers of books. Notes are necessary nowadays to recall to the reader half-forgotten names and incidents, and this edition is the careful work of the eminent bibliographer, Dr. D. E. Smith.

## PRESS NOTES

"The Open Court Publishing Company has many times laid the educated world under an obligation by its publishing ventures. Its latest undertaking is the reprinting of Augustus De Morgan's book entitled, **A Budget of Paradoxes**, which first appeared in 1872."—*Classical Weekly*.

"Augustus De Morgan was one of the most famous mathematicians of his time, and one of its greatest personalities, though the general public today knows the name principally through his son, William De Morgan, the novelist."—*Bookman*.

"**A Budget of Paradoxes** is a work in bibliography. It is a whole library of curiosities, most of them absurd enough, mathematical jokes, literary, political and philosophical 'paradoxes.' The Open Court Company has produced the work very successfully."—*Springfield Republican*.

"De Morgan, whose repute as a mathematician was high in his day, had a wide-ranging intellect and a polemical temper. He used the word paradox for that which was apart from general opinion; and it is of these departures he writes with a versatility and penetration that makes his comment interesting."—*Christian Science Monitor*.

"Delicious bits of satire of the nineteenth century . . . An amazing work."—*Review of Reviews*.

"Out of print for long years, lovers of the classical and the curious will welcome its appearance in a new edition in two volumes under the editorship of David Eugene Smith of Columbia University."—*The Tribune*.

"The collection begins with Buridan's foundation for an argument on free-will—the story of the ass, hungry and thirsty, tied between a bundle of hay and a pail of water, the observer to see which he would choose first."—*New York World*.
